

PANGANIBAN, JOHN PAOLO D.
CS3C

Code: [i for i in "citcs"]

Output: ['c', 'i', 't', 'c', 's']

The screenshot shows a Jupyter Notebook window with two tabs: 'Intro.ipynb' and 'Untitled.ipynb'. The 'Untitled.ipynb' tab is active. The toolbar includes icons for saving, adding, deleting, copying, pasting, running, and other standard Jupyter actions. The code cell contains the following Python code:

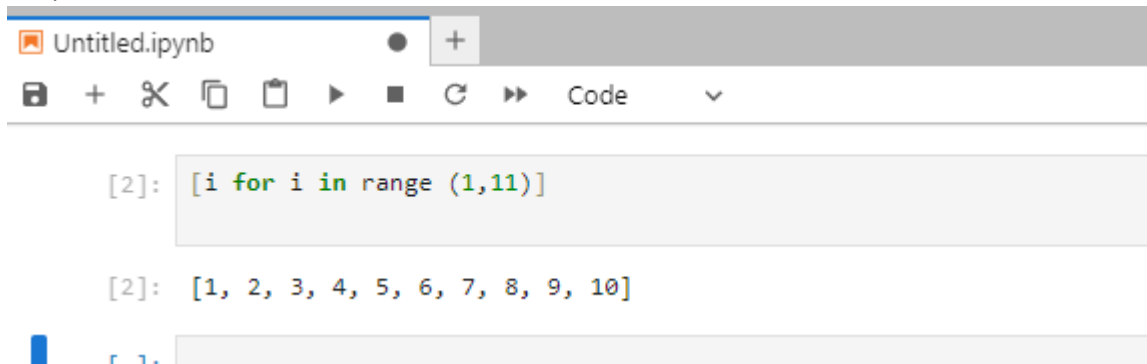

```
[1]: [i for i in "citcs"]
```

The output of the code cell is displayed below the code:

```
[1]: ['c', 'i', 't', 'c', 's']
```

Code: [i for i in range(1, 11)]

Output: [1, 2, 3, 4, 5, 6, 7, 8, 9, 10]

The screenshot shows a Jupyter Notebook window with a single tab: 'Untitled.ipynb'. The toolbar includes icons for saving, adding, deleting, copying, pasting, running, and other standard Jupyter actions. The code cell contains the following Python code:

```
[2]: [i for i in range (1,11)]
```

The output of the code cell is displayed below the code:

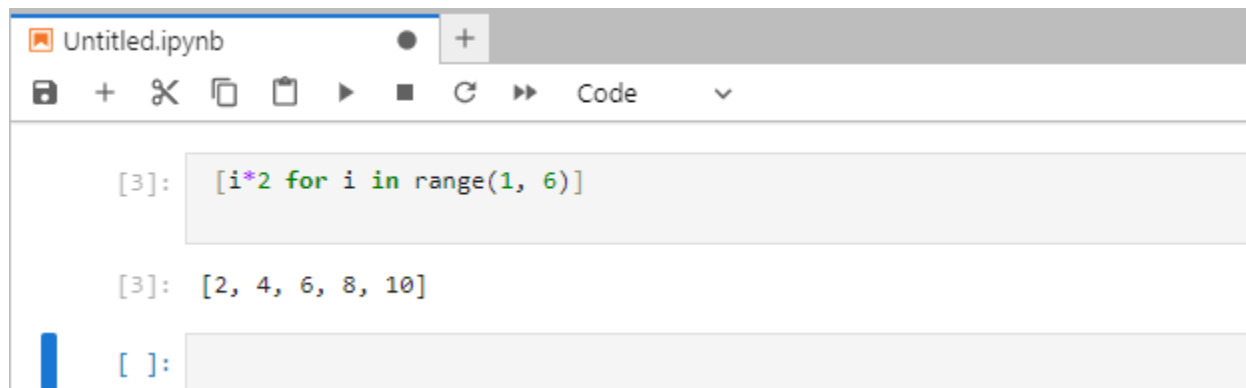

```
[2]: [1, 2, 3, 4, 5, 6, 7, 8, 9, 10]
```

Code: [i*2 for i in range(1, 6)]

Output: [2, 4, 6, 8, 10]

Code: `[i*2 for i in range(1, 6)]`

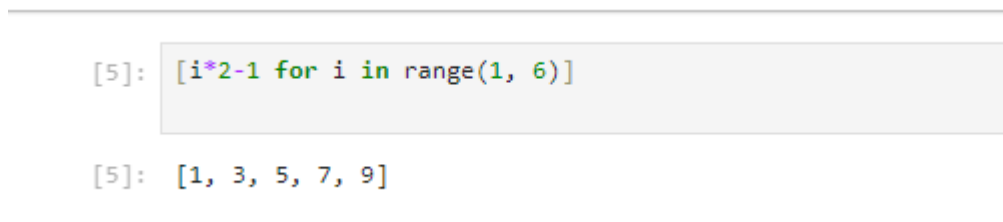

Output: `[2, 4, 6, 8, 10]`

The image shows a Jupyter Notebook interface. At the top, there is a tab labeled "Untitled.ipynb". Below the tab is a toolbar with icons for saving, adding, deleting, copying, pasting, running, and other functions. The main area contains a code cell with the following code: `[i*2 for i in range(1, 6)]`. Below the code cell, the output is displayed as `[2, 4, 6, 8, 10]`. There is also an empty code cell below the output.

Code: `[i*2-1 for i in range(1, 6)]`

Output: `[1, 3, 5, 7, 9]`

The image shows a Jupyter Notebook interface. At the top, there is a tab labeled "Untitled.ipynb". Below the tab is a toolbar with icons for saving, adding, deleting, copying, pasting, running, and other functions. The main area contains a code cell with the following code: `[i*2-1 for i in range(1, 6)]`. Below the code cell, the output is displayed as `[1, 3, 5, 7, 9]`. There is also an empty code cell below the output.
